SUBJECT: Application for Motion Designer (Social-First) [AQ-23121]

I am writing to express my strong enthusiasm for the **Motion Designer (Social-First)** role at Aquent. Combining over two decades of high-precision industrial systems engineering with Hollywood-grade post-production and modern creative technology, I design social-first motion architectures engineered not merely to animate, but to **stop the thumb and maximize algorithmic retention**.

Across vertical (9:16) and horizontal formats, I bridge traditional high-craft animation—**DaVinci Resolve (Fusion Node VFX & Fairlight Audio), After Effects, and Blender**—with modern programmatic video pipelines (**Remotion / React Three Fiber**). On recent short-form campaigns, my motion systems achieved over **61% average retention and 31-second average watch times** on organic mobile feeds by engineering the critical 0–3s hook, kinetic typography, dynamic paper-cutout collages, and autonomous camera physics.

Live English Showcases & Technical Portfolio:

- **Cinematic Studio & DaVinci Resolve Pipeline:** https://auto-bath-detailing-melbourne.vercel.app/studio
  Interactive node-based color science, IRE vectorscopes, optical halation, and Fairlight sound architecture.
- **Commercial 3D Motion & Interactive Showcase:** https://auto-bath-detailing-melbourne.vercel.app/showcase
  Photorealistic 3D vehicle staging, kinetic UI motion, and commercial video case study embeds.
- **Social Motion & Translated Video Teasers (LinkedIn):** https://www.linkedin.com/in/sherif-seif-eldin-36288b3ab
  English-translated teaser reels, animated mixed-media paper collages, and 61% retention short-form specs.
- **Creative Technology Hub:** https://www.goodbrains.pro
  Official commercial studio portfolio spanning AI cinema and motion engineering.

I welcome the opportunity to bring this high-retention motion craft and technical discipline to Aquent's enterprise client campaigns. I am available immediately for global remote collaboration.

Sincerely,

Sherif Seif Eldin
Senior Motion Designer & Creative Technologist
