SUBJECT: Application for Motion Designer (Performance) — Paid Social & Creative Testing Engine

I am writing to express my strong interest in the Motion Designer (Performance) position at SCRL. With 7+ million monthly active creators turning to SCRL for mobile collage and visual storytelling, performance creative is the lifeblood of your growth engine. Bringing an engineering background coupled with elite motion craft and data-backed creative testing, I engineer paid social video assets designed specifically to capture the 0–3 second hook and drive measurable ROAS.

My approach to performance motion is rooted in continuous hypothesis testing and visual psychology. I recently engineered a short-form video creative system that achieved a **66% average retention rate** with an average watch duration of **38 seconds**, prompting organic algorithm distribution to **99.4% non-follower audiences**. I bridge high-speed Adobe After Effects motion, kinetic typography, and Figma UI animation with Hollywood optical science (DaVinci Resolve Fusion) and code-driven video pipelines (Remotion / Three.js). I excel at building modular variation matrices—swapping hooks, pacing, and visual anchors to rapidly feed Meta's ad auction algorithms.

Featured Live Portfolios & Motion Pipelines:

- **Interactive Studio & Optical Pipeline:** https://auto-bath-detailing-melbourne.vercel.app/studio
  Live interactive DaVinci Resolve Fusion node tree demonstrating broadcast color grading, halation optics, and vectorscopes.
- **3D Interactive Automotive & Commercial Showcase:** https://auto-bath-detailing-melbourne.vercel.app/showcase
  Interactive 3D WebGL car staging with high-retention English commercial video embeds.
- **Creative Agency Hub:** https://www.goodbrains.pro
  Commercial video specs and client creative infrastructure.
- **LinkedIn Profile & Recent Creative Teasers:** https://www.linkedin.com/in/sherif-seif-eldin-36288b3ab

I admire SCRL’s deliberate, product-first ethos and would love to take ownership of your paid social creative stream, collaborating closely with your creative strategists in San Francisco to test, learn, and scale your user acquisition. I am available immediately for remote collaboration.

Sincerely,

Sherif Seif Eldin
