

SHERIF SEIF ELDIN

SENIOR MOTION DESIGNER & CREATIVE TECHNOLOGIST

Specializing in Social-First 9:16 Video, 3D Procedural Motion & High-Retention Pipelines

EXECUTIVE SUMMARY

Senior Motion Designer and Creative Technologist with 20+ years of high-precision engineering logic, specializing in **social-first video architectures, kinetic typography, and 3D procedural motion**. Proven track record engineering short-form campaigns achieving **61% average retention rates and 31-second average watch times** on organic mobile feeds (TikTok, Instagram Reels, YouTube Shorts). Bridges traditional high-craft post-production (**DaVinci Resolve Fusion VFX, After Effects, Blender**) with modern code-driven video systems (**Remotion / React Three Fiber**). Expert at translating complex technical narratives into scroll-stopping, broadcast-quality motion graphics.

TECHNICAL PROFICIENCIES & CREATIVE TOOLKIT

Motion & Animation: After Effects, DaVinci Resolve (Fusion Node VFX), Premiere Pro, Blender, Cinema 4D logic, Kinetic Typography.	**Social-First Strategy:** 0–3s Hook Architecture, 9:16 Vertical Pacing, Algorithmic Retention Optimization (61% AVD), Sound Design Sync.
Creative Technology: Remotion (React-Driven Video), Three.js, React Three Fiber, Shader logic, Generative AI visual pipelines.	**Visual Systems & Craft:** Hollywood Color Science (ACES/Log curves), Vectorscopes, Highlight Halation, Sub-pixel camera projection.

FEATURED MOTION SHOWCASES & COMMERCIAL PRODUCTIONS

Auto-Bath Detailing — Interactive 3D & Commercial Motion Suite

Creative Motion Systems Designer & 3D Art Director | Remote (Melbourne Client)

- Architected an interactive 3D web experience featuring photorealistic vehicle staging with smooth orbital camera physics.
- Directed and produced commercial video case studies featuring motion graphics, kinetic typography, and sound design.
- **Live Showcase:** https://auto-bath-detailing-melbourne.vercel.app/showcase

GoodBrains Studio — Optical Engineering & DaVinci Resolve Pipeline

Director & Lead Optical Systems Engineer | Remote

- Built the live interactive DaVinci Resolve Fusion node-graph demonstration showcase, illustrating broadcast-grade color science, IRE luma levels, and Fairlight audio engineering.
- Developed programmatic, code-driven video engines (Remotion) to generate high-volume dynamic video ads at scale.
- **Live Studio Pipeline:** https://auto-bath-detailing-melbourne.vercel.app/studio | **Hub:** https://www.goodbrains.pro

Harfen W Laken — Social Explainer & High-Retention Documentary Series

Visual Director & Motion Specialist | Remote

- Engineered social-first short-form video architectures achieving **61% average retention and 31-second average watch times** on organic algorithmic feeds.
- Developed custom 3D procedural animations (React Three Fiber) including sound-reactive audio visualizers and kinetic Cairo typography.

PROFESSIONAL WORK EXPERIENCE

GlobeVistaHub / GoodBrains Creative Studio — Founder & Lead Creative Technologist

2021 – Present | Hurghada, Egypt & Remote

- Direct end-to-end motion graphics, commercial video specs, and 3D visual architectures for tech and luxury brands.
- Deploy modern programmatic video pipelines combining Remotion, DaVinci Resolve, and generative AI models to accelerate production velocity 5x.

Multinational Energy & Industrial Systems (Baker Hughes, Halliburton, Weatherford)

Senior Systems Engineer & Project Manager | 2000 – 2020 | Middle East & International

- Managed multi-million-dollar telemetry, sensor networks, and data logging infrastructure in mission-critical environments.
- Cultivated extreme technical precision, systems architecture discipline, and client delivery under strict operational deadlines—skills now directly applied to high-velocity creative engineering.

EDUCATION & FOUNDATIONAL CREDENTIALS

B.Sc. in Communication & Systems Engineering — Arab Academy for Science & Technology (1995 – 1999)
Diploma in IT & Computer Science — Arab Academy for Science & Technology (1999 – 2000)
